EQUIPMENT**

Blow lamp

170-01-02

Cartridge-type solder

170-01-09

Cartridge-type solder

170-01-20

Moulded cast iron anvil

170-02-01

Forged iron anvil

170-02-03

Swage block

170-03-01

Protective goggles

170-04-10

Protective goggles

170-04-11

Protective goggles

170-04-15

Protective shield

170-04-01

Protective shield

170-04-02

Protective shield

170-04-04

Protective visor

170-04-21

Protective helmet

170-04-22

Protective helmet

170-04-25

Crust leather protective apron

170-05-01

Neoprene protective apron

170-05-03

Aramid fibre protective apron

170-05-05

Grain leather protective gloves

170-06-01

Crust leather protective gloves

170-06-02

Water-proof PVC gloves

170-06-12

Protective gaiters

170-07-04

Protection for knee

170-07-05

Protective shoes

170-08-01

Acetylene pressure regulator

170-09-01

Oxygene pressure regulator

170-09-02

Propan pressure regulator

170-09-04

Hydrogene/nytrogene regulators

170-09-05

Propane gas bottle

170-10-01

Propane gas bottle trolley

170-10-09

Acetylene welding and cutting tool

170-11-01

Welding lance

170-11-03

Prof. tool for welding & cutting

170-11-04

Propane gas fitting

170-11-07

Copper welding hammer

170-11-23

Welding and cutting tool set

170-11-99

Welding hoses

170-12-01

Spark lighter

170-14-01

Cleaning pickers

170-15-06

Welding hammer

170-17-01

Welding hammer

170-17-02

Welding hammer

170-17-04

Arc welding plate clamp

170-20-01

Electrode holder

170-20-02

Welding electrodes

170-18-01

Arc-welding machine

- Small electric arc-welding machine
- Forced turbo air cooling
- Alternating welding current
- Automatic thermic overheating protection
- Protection: IP21
- For rutile electrode up to $\varnothing 3,2$ mm
- Min/max capacity: 40-130A
- Voltage: 230V / 50Hz
- Approx. weight: 13,5 kg

170-00-01

Professional arc-welding machine

- Professional electric arc-welding machine with trolley
- Forced turbo air cooling
- Monophase alternate current
- Continuous current control
- Thermostatic protection against overloads
- Protection: IP21
- For rutile and basic coated electrode
- Min/max electrode \varnothing : 1,6-5mm
- Min/max capacity: 40-210A
- Voltage: 230-400V / 50Hz
- Loadless voltage 50-70 V
- Approx. weight: 39,0 kg

170-00-22

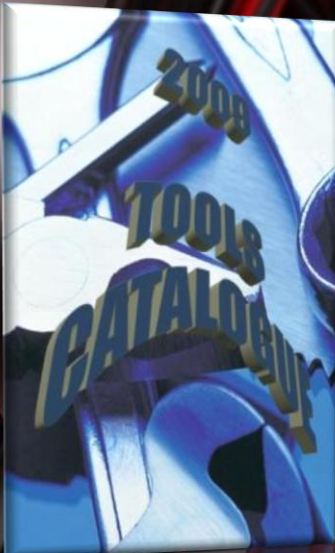

Inverter welder

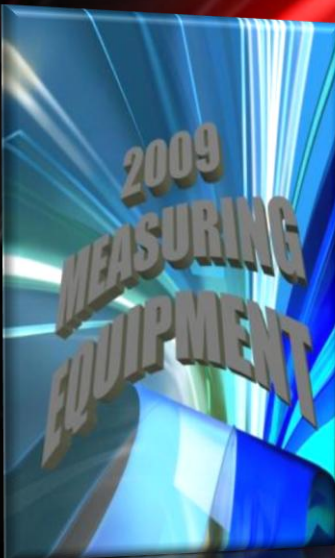

- Inverter welding machine
- Perfect for high quality welding works
- Forced air cooling
- For rutile, basic, inox and cast iron electrodes
- Max. electrode \varnothing : up to 3,2mm
- Min/max capacity: 10-130A
- Voltage: 230V / 50Hz
- Approx. weight: 5,5 kg

170-00-31
